PROFESSIONAL EXPERIENCE

CHEMISTRY / MATHS TUTOR

(November - Present)

EDSWOT – Remote / Online

- Deliver personalized online tutoring in STEM subjects (Chemistry, Physics, and Mathematics) to GCSE students, following the British curriculum.
- Prepare students for GCSE examinations by developing tailored lesson plans that reinforce key concepts and exam strategies.
- Simplify complex topics into easily digestible content, fostering student engagement and understanding through interactive and practical examples.
- Monitor and assess student progress, providing constructive feedback to help build confidence and achieve academic goals.
- Utilize modern teaching tools and platforms to create an engaging, tech-savvy learning environment, enhancing student outcomes and satisfaction.

GO-TEGS INTERNATIONAL SCHOOL — *Staff*

(May 2022 – Nov 2022)

Secondary School Teacher

- Improved overall academic performance of students in physics, chemistry, mathematics, and further mathematics through effective teaching methods and personalized assistance.
- Tracked and documented individual student progress, providing targeted support and additional resources to students who needed extra help.
- Developed and implemented engaging and interactive lesson plans that catered to different learning styles, fostering a positive and stimulating classroom environment.
- Successfully integrated technology into teaching, using educational software or online resources to enhance the learning experience and engagement of students.
- Introduced innovative teaching techniques or activities to make complex concepts in physics, chemistry, mathematics, and further mathematics more accessible and interesting for students.
- Received positive feedback from students, indicating that my teaching style, communication, and support positively influenced their understanding and interest in the subjects.
- Developed fair and effective assessment methods, providing timely and constructive feedback to students on their performance
